8120 EAST JEFFERSON AVE | DETROIT | (313) 824-7704 | WWW.INDIANVILLAGEMANOR.ORG

THE IVM INFORMER

The Developer:

Indian Village Manor (IVM) was developed by Julius Berman. Born in Russia in 1881, Mr. Berman landed in Detroit in 1888 with his family after spending time in New York City and Windsor, Ontario. After many pursuits, including the wholesale grocery business, Julius finally got into real estate in partnership with Elon J. Dwyer. They specialized in Hamtramck

subdivisions, built a number of public buildings, various large apartment houses and were the builders of IVM, the Lafayette Building downtown, and the Wiltshire Hotel.

Mr. Berman was also a director of a mortgage company with “loose” rules. The company allowed directors to approve loans outside the normal underwriting procedures. Berman borrowed \$500,000 on a second mortgage on IVM. The market forces caused rents to be much less than expected and the mortgage company had to write off the second mortgage. One Detroit News article discussing this matter did note that Mr. Berman

made a satisfactory settlement with the mortgage company.

THE ARCHITECTS:

The architectural rendering, which currently hangs in the IVM River entrance (shown above), is signed Rogers, Bonnah and Chaffee.

JAMES S. ROGERS

Welcome to Mr. Roger's new neighborhood – Detroit. Rogers moved to Detroit from Baltimore. Sometime in 1920 he returned to Baltimore seriously ill and died on June 2, 1921. It is not clear

what input he had for the IVM project. He was a relative newcomer to Detroit in 1887 when he joined forces with Walter MacFarlane. For 23 years the partnership of Rogers & MacFarlane prospered with MacFarlane producing the designs and Rogers handling the engineering and business matters. The partnership was responsible for nearly 200 known buildings starting with their first commission, the "Old Club" at the St. Clair Flats. A sample of Rogers & MacFarlane work would include buildings for Leland & Faulconer, Cadillac Motor Car, the Morgan & Wright Rubber Plant (later known as Uniroyal), and the Murphy Power Co (now an office building and home to the London Chop House). In 1910, MacFarlane suffered a complete nervous breakdown and the firm was dissolved. It is believed Rogers joined with Bonnah, first, to do the Farwell Building and later added Chaffee to the firm.

IVM ARCHIVIST

AN INVITATION

Quiet Contentment

Restful and harmonious environment breeds that quiet contentment so precious to the human heart.

"With Jefferson Avenue" an exquisite creation of the building art, set within an extremely residential district and overlooking fine waters and distant woods, offers that ideal blending of city and country most conducive to fullest living and contentment.

Rentals from \$1,000 Monthly

TO recipients of our formal invitation and to others who are considering leasing, the Indian Village Manor Company extends a cordial invitation to inspect Detroit's most beautiful, luxurious and exclusive apartments at 8126 Jefferson Avenue, today, April Third. Apartments are open from 2 to 4, and other times by appointment only.

Three suites have been luxuriously and exquisitely furnished by the Harry J. Dean Company, J. L. Hudson Company and Newcomb-Endicott Company, so that visitors may gain an excellent impression as to how ideally the arrangement and size of the rooms lend themselves to originality and elegance in furnishing.

Revised 911 Emergency Procedures:

FOR IVM CO-OWNERS, RESIDENTS/ CAREGIVERS, VISITORS/ CONTRACTORS/VENDORS

The Emergency Preparedness Committee wants to ensure that in the event of any 911 call placed from 8120 E. Jefferson by a Co-owner/Resident, Staff or Visitor, that our Emergency Operations Procedures are based upon best practice for EMS Standards of Care, and the unique construction of our residential building and grounds. In addition, this revised “Living Document” will be provided to all current Co-owners/Resident’s, and Caregivers, prior to implementation. This will respectfully allow for appropriate suggestions to be received by the committee.

Our goal is to provide staff, Entry Control, and Floor Wardens with comprehensive training and then disseminate the new IVM 2025 Emergency Operations Plan. After your initial review of this 911 step-by-step procedure, if you have any questions, concerns or suggestions please forward them to

lovejgregory936@gmail.com

as soon as possible.

The Emergency Preparedness Committee will be conducting a sixty-minute building wide Zoom Tabletop exercise. This will occur in March, date, and time to be determined. We will simulate several emergency scenarios. In early June we will conduct a full-scale exercise to include evacuation. This will be under the supervision of the Detroit Fire Department.

During the June 2025 Annual Meeting our new Emergency Operations Plan will be disseminated.

J. GREGORY LOVE
EMERGENCY PREPAREDNESS
COMMITTEE CHAIR

STEP-BY-STEP PROCEDURE FOR CALLING 911

STEP # 1: Call “911”

Provide Name, Address, Unit Number,
or location in the building.

*Note: Recommendation, Keep 911 and IVM Entry
Control Booth on “Speed Dial”*

STEP # 2: Contact the Entry Control Booth (313) 824.5320

- Inform Entry Control that you have called 911.
- Provide your unit Number.
- Or your location within the building.

STEP # 3: Entry Control (EC) Responsibility

1) EC will prepare for one of the following responding Emergency Apparatus:

- **Detroit Fire Department (DFD) EMS Ambulance**
(Note: this type of unit & private EMS units, and the supervisor’s SUV are the only units that can navigate the west side driveway to the riverfront).

2) EC will stage the arrival of the apparatus in the appropriate location based upon the following:

- DFD EMS Supervisor - Small SUV
- DFD Medical First Responder Engine Company
- DFD Medical First Responder Ladder Truck
- DFD Medical First Responder Rescue Squad
- Private EMS Ambulance

3) EC will direct EMS/Fire Personnel or Private Ambulance to the exact floor & unit or other location within the building.

- In the event of the arrival of one of the Medical First Responder Apparatus prior to an Ambulance, Entry Control will direct the first responding personnel through the Jefferson entrance to the origin of the 911 call.
- If transport is required, Entry Control will direct the Ambulance to the Riverside upon arrival.

Follow Up To Our 2025 Open Budget Meeting:

In a letter dated January 17, 2025, which accompanied the year end budget for the fiscal year 2024, we discussed some issues that came up as a direct result of listening intently to the concerns of our Co-owners. We referred to the IVM Strategic Plan that will be rolled out at our annual meeting on June 29, 2025. We continue building the foundation and we have scheduled a meeting with all committee chairs to seek their input and update them on our progress.

TO THAT END WE WANT TO REITERATE THAT YOU CAN EXPECT TO SEE SIGNS THAT WE ARE MAKING PROGRESS NOT LIMITED TO THE FOLLOWING AREAS:

- Within the next thirty days we will have the building Deep Cleaned top to bottom, you will be notified of the start date and to expect cleaning contractors on site.
- We will be selecting the two worse floors to test an alternative carpet plan.
- Skim Coating and fresh paint in the back hallways where walls were scrapped just before COVID. Prioritization will be based upon existing conditions.
- We are currently fine tuning the color for the basement storage room doors.
- New LED lighting has been added to back hallways where

necessary to brighten up the stairwells.

- We have hired two new personnel in housekeeping and PT Entry Control.
- Underway is the After-Action Report and the prioritization of association and Co-owners' issues stemming from our 5-year mandated City of Detroit Wall Report. We will be rolling out solutions within the next 6-7 weeks as this will identify several major issues that must be addressed under the City of Detroit's Property Maintenance Code.

We believe that as we move forward into 2025 the greater good of the association is best served through community collaboration. We are listening to and addressing your issues that will provide a better quality of life, enhance property value and improve IVM's curb appeal.

THE BOARD OF DIRECTORS

PROPERTY ASSESSMENT APPEAL INFORMATION

An appeal to the Board of Assessors Review may be filed between February 1st and 22nd, but is not required. Appeals to the March Board of Review is required to be filed by 4:30pm Monday, March 11, 2024.

BOARD OF REVIEW MEETINGS (ENTER HERE)

NOTICE OF MEETING

CITY OF DETROIT

MARCH BOARD OF REVIEW

The March Session of the Detroit Board of Review shall convene in-person on **Tuesday, March 5, 2024, at 9:00 A.M.** to examine and review the Tentative **2024** Assessment Rolls and shall continue in session for as many days thereafter, as needed, but no later than **Monday, April 1, 2024**, to complete the review. Appeals to the Assessors Review are recommended before appealing to the Detroit Board of Review at the Session. All appeals must be submitted in writing by filing a completed "Petition to the March Board of Review" on Form L-4035 by **Monday, March 11, 2024, 4:30p.m. EST at the Coleman A. Young Municipal Center, Property Assessment Board of Review, Suite 105, Monday-Friday 8 a.m. – 4:30 p.m.** in the following manner:

Energy Committee Update:

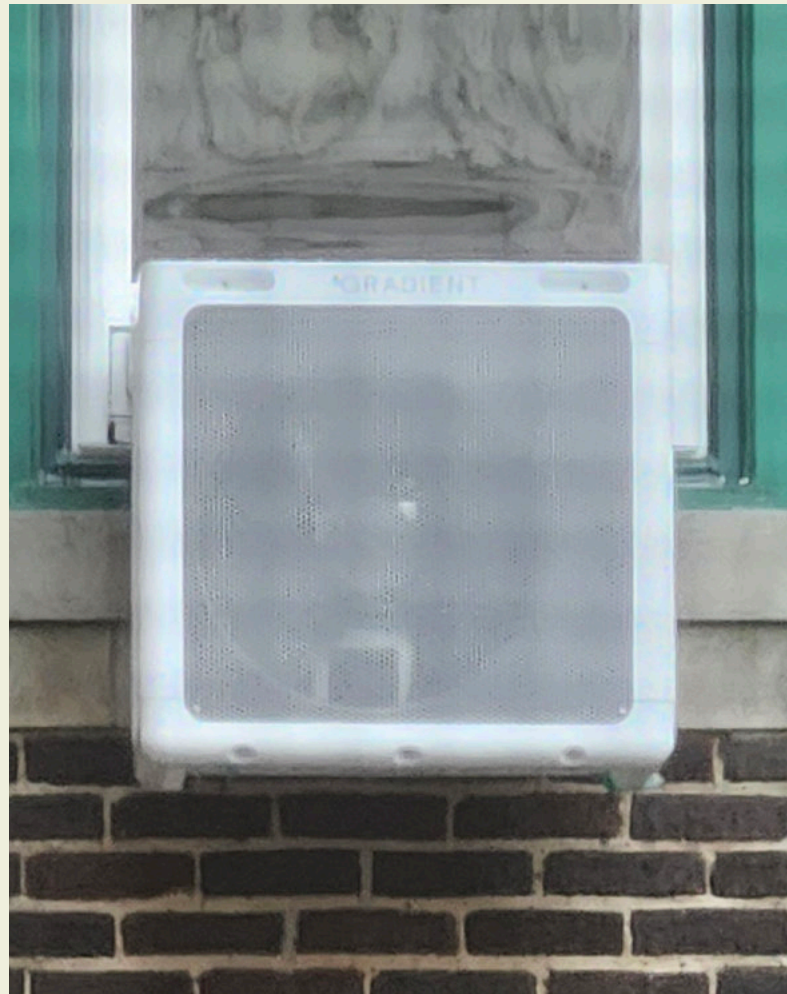

One of the Energy Committees' goals is to identify ways to improve energy utilization at IVM. This began about three years ago with discussions led by Vern Strand (7N) and, more recently, the completion of IVM's Facility Energy Assessment prepared by Building Vitals in 2023. The Facility Energy Assessment includes a number of observations regarding the condition of IVM's building infrastructure along with recommended energy efficiency improvements.

While a comprehensive plan to achieve energy efficiency at IVM will require time and a lot of money, there are actions individual co-owners can make to improve the energy efficiency of their respective condo units.

Vern and Jane Strand have taken major steps to begin this process and below is a summary of what they have achieved:

- All window air conditioners were removed last fall.
- New energy efficient windows were installed earlier this month.
- All radiator spaces below their windows will be insulated.
- Two of their radiators were removed to make way for the heat pumps. This winter, only two of their radiators have been used; the other 9 radiators in their unit have been off all winter.
- Two Gradient Window Air Source Heat pumps will be installed in unit 7N. The heat pumps will supply heat during the winter and cool air during the summer. Details for this equipment can be found at gradientcomfort.com. When the heat pumps are installed, the last two radiators will also be turned off.

When this work is completed, Vern and Jane expect to be comfortable using only the Heat

Actual heat pump unit shown (Above) .

Pumps to supply heat during the winter and keep them cool through the summer. They look forward to a consistent environment in their condo all year round with the temperature in their unit set to their preference.

Best practices for energy efficiency is to replace windows and insulate walls. While this can be an expensive proposition, it may not be necessary to realize most of the benefit of window heat pumps in a condo unit. However, doing so would decrease the amount of work the heat pumps have to do. The Strands invite you to call or visit any time to learn more about their project.

Water Shutoff Tips

From time to time, we need plumbing repairs that require us to shut off water to parts of our units, a tower, or even the entire building. Here are some tips for making life easier when that happens.

Before shut off:

- Fill some water bottles.
- Catch up on laundry and dish washing.

- Fill the bathtub and place a pitcher nearby. This is useful to refill the toilet tank after flushes. In case drain work is performed in your tower, do not flush.
- Turn off any ice maker.

AFTER RESTORATION:

- Run water for a minute or so to flush impurities and let air escape.
- Run water first in bathtubs and other fixtures without screens.
- Check faucet screens for sediment if water flow is reduced.
- Run a quick cycle on an empty washing machine to avoid any impurities.
- Turn ice maker back on.
- This is a good time to replace any water filters if needed.

HOPEFULLY THESE TIPS WILL HELP MAKE YOUR NEXT WATER SHUTOFF A BREEZE!

STEVEN LEVIS

Neighbor Spotlight:

To encourage neighbors to know each other better, the Communications Committee will profile two residents of Indian Village Manor in each edition of *All Manor of Things*. Subjects are chosen randomly, and participation is not mandatory. The hope is for everyone to feel free to greet their neighbor in the hallway and introduce themselves to each other. Everyone has a story to tell.

Steven and Marla McGhee, 4F, moved to Indian Village Manor three years ago. Steven enjoys the quiet and privacy and the good IVM neighbors. Marla echoes the same sentiment, adding she's excited about the beauty and rich history. Born in Alabama, Steven moved to Detroit when he was three years old and has lived here ever since. Marla was born and raised in Detroit. Steven is the Superintendent of Harper Woods Schools and Marla is Assistant Director of EL Education, a non-profit that supports schools in fostering equity and education.

They are raising two sons that are away at college. Malik is twenty-one years old and studies Engineering. Nineteen-year-old Malachi is a Business major. Marla describes Othello, their XL Bully dog, as quiet, playful and gentle, despite his large muscular appearance.

The McGee's enjoy concerts, dancing, music, trying out new restaurants, spa life and visiting their boys at college. They met by chance at an African World Festival in Hart Plaza. Steven said he saw Marla and held on to her arm and according to Marla, "he wouldn't let go" and after all these years, he never has.

Brenda Edwards, 6B, moved from The Jeffersonian to IVM in 2010. She loves all of the IVM Staff and Entry Personnel. Brenda, one of eleven children, originates from Arkansas. She moved to Michigan in 1970 after graduating from high school. Brenda received her Bachelor and Master Degrees of Arts from Western Michigan University. Employed by the State of Michigan, she supervises a team that assesses patient disability and makes recommendations for their long-term care via Social Security or another insurer.

Volunteerism is in her blood, so to speak, as she regularly donates blood and keeps active by walking for drives that raise funds to fight cancer and hunger. Vista Marie is a favorite charity as is the senior assistance services her church Greater Christ Baptist provides. Through Zeta Phi Beta Sorority's, Zeta Omega Beta chapter she volunteers to Save the Pearls which brings awareness of the fight against human trafficking. **2025 is the year she plans to retire!** As a jazz and blues aficionado, Brenda is looking forward to a fun, full retirement.
